Feedback from those we support and their families

The right choice for support

It was a fantastic day for all of us... I really didn't think Peter would be able to make an appearance... We were thrilled therefore when we saw Peter coming in... Over the years we have become accustomed to Peter's absence from such events and although I am used to it, it still upsets me. Although he didn't manage to stay for too long it was just fabulous to witness his participation.

The music was really good, I have never been to a music festival before and would love to go again

Music and dancing was the best bit as these are my favourite things to do

The Richmond Fellowship

It was a brilliant day... I am going to do it again next year... I felt so excited to be on stage

I had fun at the concert. The best bit was when everyone was clapping and dancing, the day made me feel happy"
